The Fairfield Public Schools Wants Your Opinion!

The Fairfield Public School District is currently undertaking an Operational Audit. Working with an outside firm, Prismatic Services, Inc., the District is seeking to improve its efficiency and effectiveness. We invite parents to go to our website, www.fairfieldschools.org, scroll to the Hot Topics & Downloads box, click on Operational Audit and then click on survey@prismaticservices.com to send your ideas, suggestions and comments.

All replies go directly to the outside firm and are not viewed by any district staff. In addition, the outside firm will not attempt to identify individuals from the emails sent and will only report results in aggregate.

Please respond to the survey no later than September 24, 2010. Thank you for helping make Fairfield even better!
